Dr. George Klein
Institute for Cell Research
Carolinska Institutet
Stockholm 60, Sweden

Dear George:

I was delighted to have your letter with its hint that you might be visiting the United States later this year. I hope you will not neglect to give us a chance to see you. I expect to be at home with the exception of the period between November 12 and 16, when I will be in Boston visiting Bernie Davis at Harvard Medical School.

We have decided to move to Stanford a little earlier than formerly planned and will definitely be out there by the 1st of February. I must also be there for the weekend of January 23-26 and if this happens to be coincident with your own presence would be very delighted to see you there. In any case, please do let us know your plans.

The N-K store finally did get in touch with us and notified us that the shipment was coming in a rather later boat than originally scheduled, but this matter seems to be entirely in order at the present time.

As ever,

Joshua Lederberg
